Based on audit, our responsibility is to express an opinion on the compliance with the applicable laws and maintenance of records by the Company. We conducted our audit in accordance with the auditing standards CSAS 1 to CSAS 4 (“CSAS”) prescribed by the Institute of Company Secretaries of India (“ICSI”). These standards require that the auditor complies with statutory and regulatory requirements and plans and performs the audit to obtain reasonable assurance about compliance with applicable laws and maintenance of records.

Due to the inherent limitations of an audit including internal, financial and operating controls, there is an unavoidable risk that some misstatements or material non-compliances may not be detected, even though the audit is properly planned and performed in accordance with the CSAS. Our report of even date is to be read along with this letter.

1. Maintenance of secretarial record is the responsibility of the management of the company. Our responsibility is to express an opinion on these secretarial records based on our audit.
2. We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provide a reasonable basis for our opinion.
3. We have not verified the correctness and appropriateness of financial records and Books of Accounts of the company and for which we relied on the report of statutory auditor.
4. Where ever required, we have obtained the Management representation about the compliance of laws, rules and regulations and happening of events etc.
5. The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of management. Our examination was limited to the verification of procedures on test basis.
6. The Secretarial Audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the company

Management Discussion and Analysis Report

Indian financial system includes banks and non-banking financial institutions. Though banking system remains dominant in financial services, non-banking financial institutions have grown in importance by carving a niche for themselves in the under-penetrated regions and unbanked segments.

NBFCs: an important part of the credit system

Financing needs in India have risen in sync with the notable growth recorded by the economy over the past decade. Non-Banking Financial Companies (NBFCs) have played a major role in meeting this need, complementing banks and other financial institutions. NBFCs help fill gaps in the availability of financial services with respect to products as well as customer and geographic segments. A strong linkage at the grassroots level makes them a critical cog in the financial machine. They cater to the unbanked masses in rural and semi-urban reaches and lend to the informal sector and people without credit histories, thereby enabling the government and regulators to realise the mission of financial inclusion.

Going forward, the country is likely to remain the world's fastest-growing major economy on the back of growing demand, moderate inflation, stable interest rate regime and robust foreign exchange reserves. The economy is poised to achieve nearly 7% growth in FY 2024-25. India's financial services sector is undergoing a profound transformation, driven by the widespread adoption of digital technologies, shifting consumer preferences and heightened competition. This dynamic landscape is reshaping the sector's growth direction. Additionally, the integration of rapid technology has revolutionised the way Indians access and pay for services, with even street vendors embracing QR code payments. Consequently, the Boston Consulting Group anticipates a remarkable surge in India's digital payments market, projecting a threefold increase from USD 3 trillion to USD 10 trillion by 2026.

Classification of NBFCs

NBFCs until now have been classified on the basis of the kind of liabilities they access, types of activities they pursue and their perceived systemic importance. RBI on October 22, 2021, introduced additional classification of NBFCs vide Scale Based Regulation (SBR) framework into four categories i.e., Base Layer (NBFC – BL), Middle Layer (NBFC – ML), Upper Layer (NBFC – UL) and Top Layer (NBFC – TL).

Industry structure and developments

Gold loan non-banking financial companies (NBFCs) will continue to lose market share to banks amid competition in the segment even as their disbursements are expected to recover this fiscal. Their growth is expected to continue, albeit at a normalised rate.

In fiscal 2023, overall credit growth was healthy as economic activity rebounded strongly across urban and rural geographies. In line with this, the overall gold loans segment (banks and NBFCs combined) expanded 21.3%, maintaining the 20.9% compound annual growth rate (CAGR) logged over the past five years. This was driven by increasing gold prices, inherently better asset quality

performance and better rates of interest.

This fiscal, while credit growth of banks in the segment is expected to normalise, that of NBFCs is expected to recover, leading to healthy growth in the overall segment. Besides, there could be a small diversion to the gold loan segment from unsecured lending in light of Reserve Bank of India (RBI)'s risk weight circular, which excluded the gold loan segment from its ambit.

The firming up of gold prices in India on account of elevated inflation, global economic slowdown, rupee depreciation and increase in gold import duty could support the loan-to-value (LTV) ratio of lenders. The rising prices also creates headroom for credit growth.

Organised gold loan penetration in India (computed as gold stock with organised financiers divided by total gold stock in India) is estimated at ~7% as of March 2023, which indicates the organised gold loan market has significant headroom for growth. Going forward, the penetration is expected to deepen because of wider geographical diversification, growing branch network and households increasing keenness to monetise their gold holdings for personal and business needs. The increase in gold prices and expectations of micro-enterprises using gold loans to fund working capital requirements are also expected to boost the growth of gold financing.

Opportunities and Threats

Opportunities:

- Untapped Markets
- Opting for digital platforms
- Increasing Gold Prices
- RBI has revised the rates for microfinance loans by NBFC from 10% to 25% of total assets.
- Demand for gold loans higher in southern states

Threats:

- Competition
- Cost of borrowing to increase on account of RBI's tighten policy stance
- Inflation
- Sudden fall in the gold price and fall in the value of the pledged gold ornaments.

Segment-wise or product-wise performance

Further strengthen and grow our gold loan and microfinance business

We see a significant opportunity for our Company to expand our customer base in small enterprise finance segment. We intend to focus on the industry opportunity and leverage our established presence to further grow our gold loan and microfinance business.

In case of loans other than Gold Loan, loans are given whether with primary/collateral security, like secured loans or without any primary/ collateral security like unsecured loans, more than ordinary care is taken such that loans are granted only to persons/firms/companies of repute with credit worthiness, future cash flows to repay the loan and track record.

Outlook

Customers demand convenience and ease of finance

NBFCs have strengthened their presence in semi-urban and rural areas, which gives them extensive regional presence and understanding of the local markets, and helps them customise products to suit customer needs. This regional presence in untapped territories helps them reach out to the unorganised sectors. With low turnaround time, better service, NBFCs are better able to meet customer demand for convenience.

Focus on expanding coverage and sustain growth momentum

As businesses open up and the economy returns to normalcy, Gold loan financiers are expanding fast to meet the expected demand in the year ahead. Our Company is expanding its reach and customer base to regain its share in the market lead by fierce competition by banks and new aged fintechs. We are trying to achieve this by focused market strategies, with increased advertising, etc.

Growth of the business through increasing geographical presence in rural and semi-urban areas

We intend to continue to grow our loan portfolio by expanding our network through the addition of new branches. In order to optimize our expansion, we carefully assess potential markets by analyzing demographic, competitive and regulatory factors, site selection and availability, and growth potential. A good reach to customers is very important in our business. Increased revenue, profitability and visibility are the factors that drive the branch network. Currently, we are present in key locations which are predominantly in South India for sourcing business namely Kerala, Karnataka and Tamil Nadu. Our strategy for branch expansion includes further strengthening our presence in South Indian states by providing higher accessibility to customers as well as leveraging our expertise and presence in southern Indian states. As a strategy, we will continue to leverage on the infrastructure provided by entities operating under the 'KLM' brand name. We expect that our diverse revenue stream will reduce our dependence on any particular product line thus enabling us to spread and mitigate our risk exposure to any particular industry, business, geography or customer segment. Offering a wide range of products helps us attract more customers thereby increasing our scale of operations. At the core of our branch expansion strategy, we expect to penetrate new markets and expand our customer base in rural and semi-urban markets where a large portion of the population has limited access to credit either because they do not meet the eligibility requirements of banks or financial institutions, or because credit is not available in a timely manner at reasonable rates of interest, or at all.

A typical loan customer expects rapid and accurate appraisals, easy access, quick approval and disbursement. We believe that we meet these criteria when compared to other money lenders, and thus our focus is to expand our loan financing business. At the core of our branch expansion strategy, we expect to penetrate new markets and expand our customer base to include customers who otherwise would rely on the unorganized sector.

Risks and Concerns

Credit Risk

Credit risk is the possibility of loss due to the failure of any counterparty abiding by the terms and conditions of any financial contract with us. We aim to reduce the aforesaid credit risk through a rigorous loan approval and collateral appraisal process, as well as a strong NPA monitoring and collection strategy.

Operational Risk

Operational risk is broadly defined as the risk of direct or indirect loss due to the failure of systems, people or processes, or due to certain other external events. We have instituted a series of checks and balances, including an operating manual, and both internal and external audit reviews. Although we disburse loans in a relatively short period of time, we have clearly defined appraisal methods as well as KYC compliance procedures in place to mitigate operational risks. Any loss on account of failure by employees to comply with defined appraisal mechanism is recovered out of their variable incentive. We also have detailed guidelines on movement and security measures of cash or gold. We are in the process of completing the installation of centralized software which automates inter branch transactions, enabling branches to be monitored centrally and thus reducing the risk of un-reconciled entries. In addition, we are in the process of installing surveillance cameras across our various branches, and subscribe to insurance to cover employee theft or fraud and burglary. Our internal audit department and our centralized monitoring systems assist in the management of operational risk.

Financial Risk

Our business is cash intensive and requires substantial funds, on an on-going basis to finance the loan portfolio and to grow it. Any disruption in the funding sources might have an adverse effect on our liquidity and financial condition. Our Company is proactively pursuing a system of identifying and accessing newer and cheaper sources of funds, to finance the loan book and to grow the business. Our Asset Liability Committee (ALCO) and Risk Management Committee (RMC) meets regularly and reviews the liquidity position of our Company and ensures availability of sufficient funding in advance.

Market Risk

Market risk refers to potential losses arising from the movement in market values of interest rates in our business.

The objective of market risk management is to avoid excessive exposure of our earnings to loss. The majority of our borrowings, and all the loans we make, are at fixed rates of interest. Thus, presently, our interest rate risk is minimal.

Internal control systems and their adequacy

Effective risk management system including appraisal, internal audit and inspections.

Risk management forms an integral part of our business as we are exposed to various risks relating to our business. The objective of our risk management system is to measure and monitor the various risks we are subject to and to implement policies and procedures to address such risks. We have an internal audit system which consists of audit and inspection, for risk assessment and internal controls. The audit system comprises of accounts audit and loan appraisal. In accordance with our internal audit

policy, our branches are subject to surprise audit on random basis. We have designed stringent evaluation process and credit policies to ensure the asset quality of our loans and the security provided for such loans. Our credit policy comprises classification of target customers in terms of track record, classification of assets, differentiated loan to value ratio for different class of customers and assets, limits on customer exposure etc. Further, in order to build quality assets and reduce NPA level, we have developed a culture of accountability by making our marketing officers responsible for loan administration, monitoring as well as recovery of the loans they originate.

For effective and timely portfolio management, we have put in place a centralized risk analytics team publishing credit and portfolio performance reports for management's review. We utilise advance statistical tools like customer behaviour scorecards for early identification of potential risks in our portfolios and to take corrective actions accordingly as required. The reports provide detailed information on various portfolio segments and ascertain the risk. In addition, periodic collection reviews are conducted on delinquent customers and segments to identify and evaluate any problem areas, to drive collection efficiencies and future acquisitions.

To implement advanced processes and systems

We intend to invest in our existing technology systems and processes to create a stronger organization and ensure good management of customer credit quality. We also intend to invest in our technology-enabled operating procedures to increase operational and management efficiencies as well as ensure strong customer credit quality. Our focus on the effective use of technology is aimed at allowing employees across our branch network to collect and enter data to a centralized management system, providing our senior management real-time access to credit processing and decision making. We continue to implement technology led processing systems to make our appraisal and collection processes more efficient, facilitate rapid delivery of credit to our customers and augment the benefits of our relationship based approach. We also believe that deploying strong technology systems will enable us to respond to market opportunities and challenges swiftly, improve the quality of services to our customers, and improve our risk management capabilities. Our Company has entered into an agreement with L Code, a software company based at Mangalore for implementing an ERP system and the ERP system has been implemented across all branches. We believe that the accurate and timely collection of such data gives us the ability to operate our business in a centralized manner and develop better credit procedures and risk management. As we continue to expand our geographic reach and scale of operations, we intend to further develop and invest in our technology to support our growth, improve the quality of our services and achieve superior turnaround time in our operations.

Further strengthen our risk management and loan appraisal

We believe risk management is a crucial element for further expansion of our Loan business. We therefore continually focus on improving our integrated risk management framework with processes for identifying, measuring, monitoring, reporting and mitigating key risks, including credit risk, appraisal risk, custodial risk, market risk and operational risk. We plan to continue to adapt our risk management procedures, to take account of trends we have identified. We believe that prudent risk management policies and development of tailored credit procedures will allow us to expand our Loan financing business without significantly increasing our non-performing assets. Since we plan to expand our geographic reach as well as our scale of operations, we intend to further develop and strengthen our technology platform to support our growth and improve the quality of our services. We are focused on improving our comprehensive knowledge base and customer profile and support

systems, which in turn will assist us in the expansion of our business.

Asset and Liability Management (“ALM”)

Our business operations require steady flow of working capital and hence managing the day to day liquidity becomes a critical function. The ALM, amongst other functions, is concerned with risk management, providing a comprehensive as well as a dynamic framework for measuring, monitoring and managing liquidity, market risk and interest rate risk. The ALM ensures proper balance of assets and liabilities of the company as per guidelines issued by Reserve Bank of India from time to time. The ALM also computes and monitors periodically the maturity pattern of the various liabilities and assets of the company.

Internal Audit Department

Our internal audit department assists in the management of operational risk using our centralised monitoring systems. Separate divisions of our internal audit department are in place to handle the audit of the departments of the corporate office and those of the branch offices. The audits of our branches are divided into two categories:

- (i) Audit and
- (ii) Inspection.

Branch audit is carried out quarterly with the focus on the verification of documents, accounts, performance and compliance. In addition, an incremental high value loan check is carried out by regional managers as part of their periodical branch inspection.

Risk Management Audit

Our branch auditors also carry out a system driven risk audit on certain identified key risk parameters. These are keyed into the system and alerts are sent to branch controllers and top management in case the risk weight given under a specific parameter goes beyond the prefixed tolerance levels. In all such cases, the concerned branches are inspected by the branch controllers or top management personnel depending on the severity of risk and immediate remedial actions are initiated.

Material developments in Human Resources / Industrial Relations front, including number of people employed

The department of Human Resource plays a crucial role in engaging with employees at all levels, keeping them motivated and enthusiastic towards their respective work, imparting training and development, while aligned to the values and ethos of the Company. The initiatives rolled out by the Human Resource department together with the Learning and Development department for the benefit of the employees and their skill developments have been listed below:

- i. Disha: three days corporate programme mandatory for all the newly joined staff members of the organization. This programme focuses on inducting the employees with a proud feeling, adapting to the corporate culture and make them comfortable at their new work place. Also, to make employees familiarize with the new working environment by educating them about the industry, organisation, products, process and to impart necessary skill sets.
- ii. Leadership Excellence Advancement Programme (LEAP): three day leadership training for all supervisory grade employees conducted to equip the leaders with the latest leadership skills to act according to the changing scenario. The branch managers are imparted with team management, marketing and leadership skills.
- iii. Power Up: a one day training programme for all non-supervisory grade employees to update the employees with latest information and equip them with the skill set and knowledge required to be adaptable.
- iv. Leadership Accelerator Management Programme (LAMP): two day leadership workshop conducted for Zonal Managers and Regional Managers to impart various higher level leadership skills required for senior management.
- v. Catalyst: one day leadership workshop for top level management employees in corporate office to create a platform for brainstorming and collective thinking for decision makers.

The number of permanent employees on the rolls of company as on March 31, 2024 is 2455.

Basis for Opinion

We have conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial results, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 3 to the Financial Statement, which describes that the Company has recognised impairment on financial assets to reflect the adverse business impact and uncertainties arising from the COVID-19 pandemic. Such estimates are based on current facts and circumstances and may not necessarily reflect the future uncertainties and events arising from the full impact of the COVID-19 pandemic.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statement of the current period. These matters were addressed in the context of our audit of the financial statement as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

transaction. The Company's financial accounting and reporting processes are so highly dependent on the automated controls in information systems, that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.

In the month of Feb 2020 company implemented a new IT Software, and most of the post live fine tuning was during the F.Y 2020-21. The outbreak of the COVID – 19 pandemic during the year; subsequent lockdown and travel restrictions affected the speed of IT Software implementation related work.

From a financial reporting perspective the Company uses and we have tested the financial accounting and reporting system and loan management systems and other tools for its overall financial reporting.

financial accounting and reporting systems, including system access and system change management.

We evaluated the design, implementation and operating effectiveness of the significant accounts-related IT automated controls which are relevant to the accuracy of system calculation, and the consistency of data transmission.

We obtained an understanding of the Company's Internal control environment and check available IT set up, to counter the shortfalls if any in the IT infrastructure.

Information Other than the Financial Statement and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statement and our auditor's report thereon.

Our opinion on the financial statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statement, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statement or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

Management's Responsibility for the Standalone Financial Results

These standalone financial results have been compiled from the interim standalone financial statements. The Company's Board of Directors are responsible for the preparation of these standalone Financial Results that give a true and fair view of the net

profit/ loss and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 (Ind AS 34) "Interim Financial Reporting" specified under section 133 of the Act/ issued by the Institute of Chartered Accountants of India, the relevant provisions of the Banking Regulation Act, 1949, the circulars, guidelines and directions issued by the Reserve Bank of India (RBI) from time to time ('RBI Guidelines') and other accounting principles generally accepted in India and in compliance with regulation 52 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act/ Banking Regulation Act, 1949/non – banking financial company – systematically important non – deposit taking company and deposit taking company (Reserve Bank) directions, 2016 for safeguarding of the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial results

that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial results, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statement, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Company of which we are independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statement of KLM Axiva Finvest Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of KLM Axiva Finvest Limited (“the Company”) as of March 31, 2024 in conjunction with our audit of the financial statement of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control

over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements for the year ended March 31, 2024

1. CORPORATE INFORMATION

KLM Axiva Finvest Limited, (the Company), is a Public limited company, incorporated on 28 April 1997. The Company was registered with the Reserve Bank of India (RBI) under section 45-IA of the Reserve Bank of India Act, 1934 and primarily engaged in lending and related activities. The Company has received the certificate of registration 09.00006 on 13th December, 1997 enabling the Company to carry on business as Non-Banking Financial Company.

The Company offers broad suite of lending and other financial products such as gold loan, mortgage loan, loan against securities, micro finance loans etc.

The registered office of the Company is at Plot No. 39, Door No. 8-13, 1st Floor, Ashoka Complex, Mythripuram Colony, Gayathri Nagar X Road, Vaishalinagar PO. Hyderabad, Rangareddi, Telangana, 500079.

2. BASIS OF PREPARATION AND PRESENTATION

The financial statements of the company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time). The financial statements have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant Accounting Standards. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.

The above financial statements have been prepared in accordance with the Indian Accounting Standards prescribed read with relevant rules issued there under and other accounting principles generally accepted in India mainly considering the Master Directions issued by the Reserve Bank of India ("RBI") as applicable to Non-Banking Financial Company - Systemically Important Non-Deposit taking Company.

The preparation of financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosed amount of contingent liabilities. Areas involving a higher degree of judgement or complexity, or areas where assumptions are significant to the Company are discussed in Note 5 - Significant accounting judgements, estimates and assumptions.

The financial statements are presented in Indian Rupees (INR).

PRESENTATION OF FINANCIAL STATEMENT

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis.

STATEMENT OF COMPLIANCE

These separate financial statements of the Company have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 and the generally accepted accounting principles as referred to above.

3. IMPACT OF COVID-19

The COVID-19 outbreak is on-going and the actual extent of its impact on the economy globally in general and in India, in particular remains uncertain. The outbreak has contributed to a significant decline and volatility in the global and Indian financial markets and slowdown in the economic activities. The Reserve Bank of India (RBI) has issued guidelines relating to COVID-19 Regulatory Package dated March 27, 2020, April 17, 2020 and May 23, 2020 and in accordance therewith, the Company has offered an optional moratorium of six months on the payment of all principal instalments and/or interest, as applicable, for the loans disbursed up to covid period and during the year 2020-21. For all such accounts where the moratorium is granted, the asset classification shall remain stand still during the moratorium period.

A lot of requests were received during the year 2022-23 from customers under stress and concerned branches seeking extension in repayment period. The board noted that the RBI has given a total period of 2 years (including already given moratorium period, if any) for FITL, vide its circular dated May 5, 2021 and granted additional time of eighteen months.

Further, the Company has, based on current available information and based on the policy approved by the board, determined the prudential estimate of provision for impairment of financial asset as at March 31, 2024. Based on the current indicators of future economic conditions, the Company considers this provision to be adequate.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1. Financial Instruments

(I) Financial Assets

a) Initial recognition

All financial assets are recognised initially at fair value. In case of financial assets which are not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets, are adjusted to the fair value on initial recognition.

b) Subsequent measurement

The Company classifies its financial assets into the following measurement categories depending on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets:

- a. **Financial assets measured at amortised cost-** A financial asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- b. **Financial assets measured at fair value through other comprehensive income (FVOCI) -** A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- c. **Financial assets measured at fair value through profit or loss (FVTPL) -** A financial asset which is not classified in any of the above categories is measured at FVTPL.

Notes to the Financial Statements for the year ended March 31, 2024

c) Other Equity Investments

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the changes in fair value through other comprehensive income (FVOCI).

d) Direct Assignment of Loans

The company has assigned some gold loans to other parties. The assigned portfolio is reduced from the total gold loan asset under management.

Particulars	Amount (In Lakhs)
Gold Loan Asset Under Management (AUM)	1,08,348.78
Less : Assigned portfolio	1,598.06
Gold Loan (As per Note 8)	1,06,750.72

(II) Financial Liabilities

a) Initial recognition

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, non-convertible debentures, loans and borrowings including bank overdrafts.

b) Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

4.2. Derecognition of financial assets and liabilities

(I) Financial Assets

The Company derecognizes a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

(II) Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

4.3. Impairment of financial assets

I. Overview of the Expected Credit Loss (ECL) model

The Company recognises impairment allowance for expected credit loss on financial assets held at amortised cost. The Company recognises loss allowances (provisions) for expected credit losses on its financial assets (including non-fund exposures) that are measured at amortised costs or at fair value through other comprehensive income account.

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of the lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

The Company applies a three-stage approach to measuring expected credit losses (ECLs).

Stage 1: 12-months ECL

For financial assets where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised.

Stage 2: Lifetime ECL – not credit impaired

For financial assets where there has been a significant increase in credit risk since initial recognition but are not credit impaired, a lifetime ECL (i.e. reflecting the remaining life time of the financial asset) is recognised.

Stage 3: Lifetime ECL – credit impaired

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

The Company has identified a zero bucket for financial assets that are not overdue.

II. Estimation of Expected Credit Loss

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

Probability of Default (PD) - The Probability of Default is an estimate of the likelihood of default over a given time horizon. The Company uses historical information where available to determine PD.

Exposure at Default (EAD) - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, whether scheduled by contract or otherwise, expected draw downs on committed facilities.

Notes to the Financial Statements for the year ended March 31, 2024

Loss Given Default (LGD) – The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral.

4.4. Offsetting of financial instruments

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

4.5. Cash and cash equivalents

Cash and cash equivalents include cash on hand and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

4.6. Property, Plant and Equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. The cost of an item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Advances paid towards the acquisition of fixed assets, outstanding at each reporting date are shown under other non-financial assets. The cost of property, plant and equipment not ready for its intended use at each reporting date are disclosed as capital work-in-progress.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income /expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

4.7. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use. Following initial recognition, intangible assets are

Notes to the Financial Statements for the year ended March 31, 2024

carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over the estimated useful economic life.

Gains or losses from de-recognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit or Loss when the asset is derecognised.

4.8. Depreciation and Amortisation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the written down value method. Freehold land is not depreciated.

The estimated useful lives of items of property, plant and equipment for the current period are as follows:

Asset	Useful life
Building	30-60Years
Computers and servers	3-6 Years
Office equipment	5 Years
Furniture and fixtures	10 Years
Vehicles	8-10 Years

* Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

Intangible Assets are amortised on a Straight Line basis over the estimated useful economic life. Computer Software which is not an integral part of the related hardware is classified as an intangible asset, and amortised over a period of five years, being its estimated useful life.

4.9. Impairment of non-financial assets

At Balance Sheet date, an assessment is done to determine whether there is any indication of impairment in the carrying amount of the Company's assets. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount.

An assessment is also done at each Balance Sheet date whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. The carrying amount of the fixed asset is increased to the revised estimate of its recoverable amount but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss is recognised in the Statement of Profit and Loss for the year.

After recognition of impairment loss or reversal of impairment loss as applicable, the depreciation charge for the fixed asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on written down value basis over its remaining useful life.

4.10. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

Notes to the Financial Statements for the year ended March 31, 2024

(I) Interest Income

The Company recognises Interest income by applying the effective interest rate (EIR) to the gross carrying amount of a financial asset except for purchased or originated credit-impaired financial assets and other credit-impaired financial assets. For purchased or originated credit-impaired financial assets, the Company applies the

credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. Such interests, where instalments are overdue in respect of non-performing assets are recognised on realization basis.

The EIR in case of a financial asset is computed

- a) As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b) By considering all the contractual terms of the financial instrument in estimating the cash flows
- c) Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Interest income on all trading assets and financial assets required to be measured at FVTPL is recognised using the contractual interest rate as net gain on fair value changes.

Other Income: In respect of the other heads of income, the Company accounts the same on accrual basis.

(II) Recognition of revenue from sale of goods or services

Revenue (other than for Financial Instruments within the scope of Ind AS 109) is measured at an amount that reflects the considerations, to which an entity expects to be entitled in exchange for transferring goods or services to customer, excluding amounts collected on behalf of third parties. The Company recognises revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Processing fee which is not form part of effective interest rate has been recognised as and when it is accrued.

(III) Dividend Income

Dividend income is recognised when the Company's right to receive the payment is established. This is established when it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

Notes to the Financial Statements for the year ended March 31, 2024

4.11. Finance cost

Finance costs represents Interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

The EIR in case of a financial liability is computed

- a) As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortised cost of a financial liability.
- b) By considering all the contractual terms of the financial instrument in estimating the cash flows
- c) Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Interest expense includes issue costs that are initially recognised as part of the carrying value of the financial liability and amortised over the expected life using the effective interest method. These include fees and commissions payable to advisers and other expenses such as external legal costs, Rating Fee etc, provided these are incremental costs that are directly related to the issue of a financial liability.

4.12. Employee Benefits

Short Term Employee Benefits: All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense)

Defined Contribution Plan

Eligible employees of the Company receive benefits from provident fund, which is a defined contribution plan. Both the eligible employees and the Company make monthly contributions to the Government administered provident fund scheme equal to a specified percentage of the eligible employee's salary. Amounts collected under the provident fund plan are deposited with in a government administered provident fund.

The Company's contribution to employee state insurance scheme is considered as defined contribution plans and is charged as an expense in the Statement of Profit and Loss based on the amount of contribution required to be made and when services are rendered by the employees.

4.13. Income taxes

Income tax comprises current and deferred income tax.

Current income tax for current year and prior periods is recognised at the amount expected to be paid or recovered from the tax authorities, using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss i.e., either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Notes to the Financial Statements for the year ended March 31, 2024

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred income tax assets and liabilities are measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognised as income or expense in the period that includes the enactment or substantive enactment date. A deferred income tax asset is recognised to the extent it is probable that future taxable income will be available against which the deductible temporary timing differences and tax losses can be utilised. The Company offsets income-tax assets and liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

4.14. Earnings per share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after attributable taxes) by the weighted average number of equities shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

4.15. Provisions

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

4.16. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

4.17. Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

4.18. Segment Reporting

The Company is engaged in the business segment of Financing, whose operating results are regularly reviewed by the Board of Directors, which has been identified as being the chief operating decision maker, to make decisions about resources to be allocated and to assess its performance, and for which discrete financial information is available. The Company has concluded that the business of lending finance is the only reportable segment.

4.19. Leases

With effect from April 1, 2019, the Company has applied Ind AS 116 'Leases' to all lease contracts existing on April 01, 2019 by adopting the modified retrospective approach. Accordingly, the comparative information is not required to be restated.

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset.

The Company as a lessee

The Company has elected not to recognise right-of use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months and leases with low value assets. The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Company is reasonably certain to exercise that option.

The Company recognises the lease payments associated with these leases as an expense in Statement of Profit and Loss on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lessee's benefit. The related cash flows are classified as operating activities.

Wherever the above exception permitted under Ind AS 116 is not applicable, the Company at the time of initial recognition:

- measures lease liability as present value of all lease payments discounted using the Company's incremental cost of borrowing and directly attributable costs. Subsequently, the lease liability is increased by interest on lease liability, reduced by lease payments made and remeasured to reflect any reassessment or lease modifications specified in Ind AS 116 'Leases', or to reflect revised fixed lease payments.
- measures 'Right-of-use assets' as present value of all lease payments discounted using the Company's incremental cost of borrowing and any initial direct costs. Subsequently, 'Right-of-use assets' is measured using cost model i.e., at cost less any accumulated depreciation (depreciated on straight line basis over the lease period) and any accumulated impairment losses adjusted for any remeasurement of the lease liability specified in Ind AS 116 'Leases'

5. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Notes to the Financial Statements for the year ended March 31, 2024

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

5.1. Business Model Assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

5.2. Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

5.3. Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

5.4. Effective Interest Rate (EIR) method

The Company's EIR methodology recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, probable fluctuations in collateral value as well as expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

5.5. Other estimates

These include contingent liabilities, useful lives of tangible and intangible assets etc.

Nature and purpose of Reserves

Securities premium

This Reserve represents the premium on issue of equity shares. The reserve can be utilised only for the purposes in accordance with the provisions of the Companies Act, 2013.

Statutory reserve

Statutory Reserve is created as per the terms of section 45-IC(1) of the Reserve Bank of India Act, 1934. It requires every non banking finance institution which is a Company to create a reserve fund and transfer therein a sum not less than twenty percent of its net profit every year as disclosed in the statement of profit and loss before any dividend is declared. The Company has appropriated 20% of the Profit After Tax to the fund for the year.

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of profit for the period at a specified percentage in accordance with applicable regulations. After the introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of the Companies Act, 2013.

Revaluation reserve

The revaluation reserves represents the gain/ loss attained by the company while revaluing its assets to fair market value. During the year, the company revalued some of its landed property and the gain/loss has been transferred to revaluation reserve.

Retained earnings

This reserve represents the cumulative profits of the Company.

**Note 36 - Capital
Capital Management**

The Company's objective is to maintain appropriate levels of capital to support its business strategy taking into account the regulatory, economic and commercial environment. The Company aims to maintain a strong capital base to support the risks inherent to its business and growth strategies. The Company endeavours to maintain a higher capital base than the mandated regulatory capital at all times.

The Company's assessment of capital requirement is aligned to its planned growth which forms part of an annual operating plan which is approved by the Board and also a long range strategy. These growth plans are aligned to assessment of risks- which include credit, liquidity and interest rate. The Company monitors its capital to risk-weighted assets ratio (CRAR) on a regular basis through its Assets Liability Management Committee (ALCO).

Notes on Financial Statements for the year ended march 31, 2024

Note 34 - Risk Management

Risk is an integral part of the Company's business and sound risk management is critical to the success. As a financial lending institution, the Company is exposed to risks that are particular to its lending and the environment within which it operates. The Company has a risk management policy which covers risk associated with the financial assets and liabilities. The principal objective in Company's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of Directors constituted is responsible for the overall risk management approach, approving risk management strategies and principles.

The Risk Management Committee shall be responsible for the following:

1. Reviewing the operations of the organization followed by identifying potential threats to the organization and the likelihood of their occurrence, and then taking appropriate actions to address the most likely threats.
2. Identifying the risks an organization is subject to, deciding how to manage it, implementing the management technique, measuring the ongoing effectiveness of management and taking appropriate correction action and provide a framework that enables future activities to take place in a consistent & controlled manner.

The Company is generally exposed to credit risk, liquidity risk, market risk and operational risk.

I. Credit risk

Credit risk is the possibility of loss due to the failure of any counterparty abiding by the terms and conditions of any financial contract obligations resulting in financial loss to the Company. The Company's main income generating activity is lending to customers and therefore credit risk is a principal risk. Credit risk mainly arises from loans and advances.

The Company addresses credit risk through following processes:

1. Through a rigorous loan approval and collateral appraisal process, as well as a strong NPA monitoring and collection strategy.
2. Minimise losses due to defaults or untimely payments by borrowers
3. Credit risk on Gold loan is considerably reduced as collateral is in the form of Gold ornaments which can be easily liquidated and adequate margin of 25% or more is retained while disbursing the loan.

Classification of financial assets under various stages

The Company classifies its financial assets in three stages having the following characteristics:

Stage 1: unimpaired and without significant increase in credit risk since initial recognition on which a 12 month allowance for ECL is recognised;

Stage 2: a significant increase in credit risk since initial recognition on which a lifetime ECL is recognised;

Stage 3: objective evidence of impairment, and are therefore considered to be in default or otherwise credit impaired on which a lifetime ECL is recognised.

The Company considers a financial instrument as defaulted and therefore Stage 3 (credit-impaired) for Expected Credit Loss (ECL) calculations in all cases when the borrower becomes 90 days past due (DPD) on its contractual payments. All financial assets are deemed to have suffered a significant increase in credit risk when they are 30 DPD and are accordingly transferred from stage 1 to stage 2.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD).

Notes on Financial Statements for the year ended march 31, 2024

Exposure at Default (EAD)

The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, whether scheduled by contract or otherwise.

Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon.

To calculate the ECL for a Stage 1 and Stage 2, the Company assesses whether any abnormal reasons occurred for a possible default.

To calculate the ECL for Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information wherever available, expertise of the management team to determine PD.

Loss Given Default (LGD)

LGD is the estimated loss that the Company might bear if the borrower defaults. The Company determines its recovery by analysing the recovery trends, borrower rating, collateral value and expected proceeds from sale of asset.

In estimating LGD, the company reviews macro-economic developments taking place in the economy.

II. Liquidity risk

Liquidity risk is the non-availability of cash to pay a liability that falls due. A company is deemed to be financially sound if it is in a position to carry on its business smoothly and meet all the obligations - both long term as well as short term - without strain. Liquidity Risk arises largely due to maturity mismatch associated with assets and liabilities of the Company. Liquidity risk stems from the inability of the Company to fund increase in assets, manage unplanned changes in funding sources and meet financial commitments when required.

Company has implemented liquidity management policy for reducing the risk relating to liquidity issues. Currently the policies relating to liquidity are as follows:

1. The Company is maintaining high capital adequacy ratio over and above limits prescribed by regulators.
2. The Company ensures to keep liquidity to cover unexpected repayment obligation.
3. Promoting fund infusion by way of Non-Convertible debentures and subordinated debts so that due date for interest and maturity can be pre known.
4. Funding from long terms sources and lending as short term loans.
5. Reducing the percentage of unsecured lending so that repayment up to a level is not affected.

Asset Liability Management (ALM)

The table below shows the maturity pattern of significant financial assets and financial liabilities. In the case of loans, contracted tenor of gold loan is maximum of 12 months. However, on account of high incidence of prepayment before contracted maturity, the below maturity profile has been prepared by the management on the basis of historical pattern of repayments. In case of loans other than gold loan, the maturity profile is based on contracted maturity.

III. Market risk

Market risk refers to potential losses arising from the movement in market values of interest rates in the Company's line of business. The objective of market risk management is to avoid excessive exposure of our earnings to loss.

Interest rate risk

Interest rate risk is the risk where changes in the market interest rates might adversely affect the Company's financial condition. The interest rate risks are viewed from earning perspective and economic value perspective, respectively. Over the last several years, the Government of India has substantially deregulated the financial sector. As a result, interest rates are now primarily determined by the market, which has increased the interest rate risk exposure.

The results of the Company's operations are substantially dependent upon the level of the net interest margins. Interest rates are sensitive to many factors beyond the Company's control, including the RBI's monetary policies, domestic and international economic and political conditions and other factors. Rise in inflation, and consequent changes in the bank rates, repo rates and reserve repo rates by the RBI has led to an increase in interest rates on loans provided by banks and financial institutions.

In order to manage interest rate risk, the company seek to optimize borrowing profile between short-term and long-term loans and the company adopts funding strategies to ensure diversified resource-raising options to minimize cost and maximize stability of funds. The Company has Board Approved Asset Liability Management (ALM) policy for managing interest rate risk and policy for determining the interest rate to be charged on the loans given.

IV. Operational risk

Operational risk is broadly defined as the risk of direct or indirect loss due to the failure of systems, people or processes, or due to certain other external events. The Company has instituted a series of checks and balances, including an operating manual, and both internal and external audit reviews. Any loss on account of failure by employees to comply with defined appraisal mechanism is recovered out of their variable incentive. The Company also has detailed guidelines on movement and security measures of cash or gold. The Company cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Company also have a strong internal audit department which checks the level of operational compliances of branches.

V. Price risk

In recent years the company have become a gold loan NBFC. The variations in market price of gold can affect the business of the company. Gold price is affected by large number of macro economic scenarios and not predictable. Any sharp decrease in price can adversely affect the business of the company.
